- Introduction
- Step by step guide to connect your Wallbox charging device to Mobiflow

Introduction

This document describes how you need to connect your Wallbox charging device via OCPP to the Mobiflow backend. There are 2 ways to do this:

1. Via the myWallbox app on your smartphone
2. Via the myWallbox portal on your computer

Connection to the internet and thus Mobiflow can be established via Mobiflow SIM, UTP or WiFi.

When connecting to mobiflow SIM, use APN "optimile" without password.

Step by step guide to connect your Wallbox charging device to Mobiflow with the myWallbox app

1. Download the myWallbox app on your smartphone.
2. Register or log in.

wallbox ™

mobiflow

Step by step guide to connect your Wallbox charging device to Mobiflow with the myWallbox app

3. Add your charger by scanning the QR-code on the frame.

4. Check for the latest updates for the charger in the MyWallbox app.

mobiflow

Step by step guide to connect your Wallbox charging device to Mobiflow with the myWallbox app

5. Select your charger and click on configuration. ⚙

6. Click on OCPP (if the charger doesn't support OCPP, this button will be invisible).
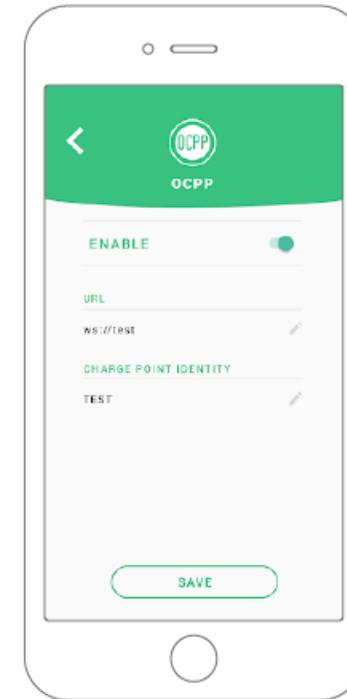

Step by step guide to connect your Wallbox charging device to Mobiflow with the myWallbox app

7. Fill out the OCPP parameters and click SAVE*

- Enable: toggle switch

- URL: wss://proxy.optimile.eu/services/ocppj

- Chargepoint Identity (serial number of the charger, please do not change this)
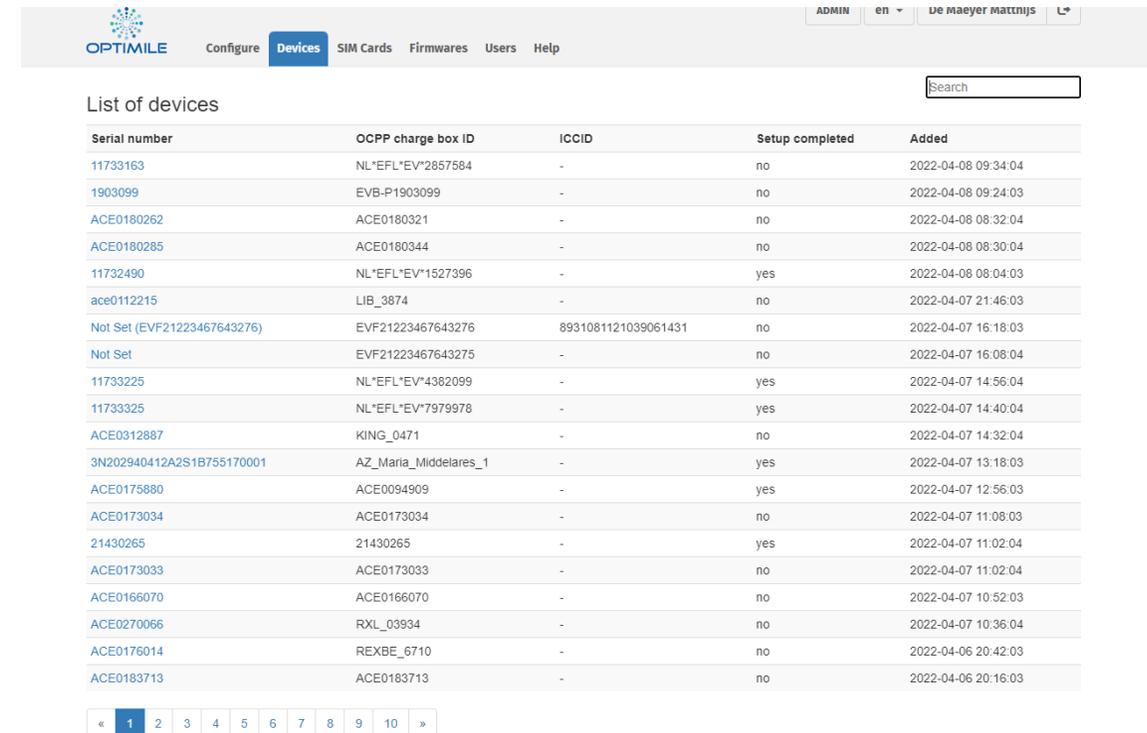

- Accept general terms and conditions

* The charger will reboot and the new configuration will be applied.
